

At the University of Göttingen -Public Law Foundation-, Department für Nutztierwissenschaften - Abt. Produktqualität tierischer Erzeugnisse, there is a position as

Postdoctoral Fellow (all genders welcome)
Entgeltgruppe 13 TV-L/100%

to be filled. Starting date is as soon as possible. The position is to be filled for a limited period of three years, with the possibility of extension for another three years.

The position offers the possibility for habilitation.

Your responsibilities will include:

- Leading research projects of the division
- Conceptualization, acquisition and implementation of third-party funded projects
- Teaching in the faculty's B.Sc. and M.Sc. programs
- Supervision of bachelor, master and doctoral students
- Participation in the committees of the university self-administration

Requirements are:

- MSc degree with very good or good results in agricultural science, veterinary medicine, food chemistry, or alike
- PhD in agricultural science, food chemistry, veterinary medicine or alike, preferably with a focus on product quality, completed with very good or good results
- Research experience in the field of livestock science, quality of animal products, sensory analysis and/or food analysis (especially chromatography, spectroscopy)
- (Initial) experience in university teaching and thesis supervision
- Good to very good command of written and spoken English and (desirable) good to very good command of German
- Confident handling of common MS office software
- Ability and willingness to perform statistical data analysis, ideally using R
- Experience in project management and funding acquisition is an advantage

Your strengths are ideally creativity, commitment and implementation strength, i.e. you are able to develop research goals and solution paths as well as implement them effectively. You are characterized by a quick grasp as well as a hands-on mentality, while working conscientiously and responsibly. You communicate convincingly and inspire people inside and outside the team to work with you.

The position offers the opportunity to develop and realize your own research focus in the profile of the division and thus to participate in socially relevant topics. Your further scientific qualification (habilitation) is desired and actively supported. This also includes the opportunity to participate in the certificate course in higher education didactics.

You will have access to the research infrastructure and laboratories of the department including the sensory lab of the Faculty of Agricultural Sciences. You will have a fair and secure job with flexible working hours including the possibility of mobile working. There is an option for an additional company pension (VBL) and you will receive various employee benefits. Lower Saxony also offers the possibility of educational leave (5d/calendar year).

The university city of Göttingen inspires with a unique scientific density and offers a charming surrounding area with high recreational value.

Your application should include the following: a letter of motivation stating your personal drive, research interests and suitability, curriculum vitae, evidence of your professional qualifications, references (not older than 3 years), and a list of your publications incl. oral presentations.

The University of Göttingen is an equal opportunities employer and places particular emphasis on fostering career opportunities for women. Qualified women are therefore strongly encouraged to apply in fields in which they are underrepresented. The university has committed itself to being a

family-friendly institution and supports their employees in balancing work and family life. The mission of the University is to employ a greater number of severely disabled persons. Applications from severely disabled persons with equivalent qualifications will be given preference.

Please upload your application in one pdf file including the usual documents until 1/18/2023 on the application portal of the university using this link: <http://obp.uni-goettingen.de/de-de/OBF/Index/72920>. For more information get in touch with Daniel Mörlein directly via E-Mail: daniel.moerlein@uni-goettingen.de, Tel. +495513925601 .

Please note:

With submission of your application, you accept the processing of your applicant data in terms of data-protection law. Further information on the legal basis and data usage is provided in the [Information General Data Protection Regulation \(GDPR\)](#)
