**Regulation concerning the qualifications for entry and admission  
for the consecutive Master's degree programme "Development Economics"  
at the University of Göttingen**

**I. Scope**

**§ 1 Scope**

- (1) These regulations govern the entry and admission to the consecutive Master's degree programme "Development Economics".
- (2) The University executes an autonomous procedure for assessing the entry qualifications for all university places to be awarded in the consecutive Master's degree programme "Development Economics" in accordance with the following provisions.
- (3) <sup>1</sup>If the number of applicants who meet the qualifications for entry exceeds the available places, the university awards the places based on the results of its own selection procedure.

<sup>2</sup>If the number of applicants who meet the qualifications for entry falls short of the available places, a selection procedure does not take place.

## **II. Authorisation for entry**

### **§ 2 Qualifications for entry**

(1) <sup>1</sup>Applicants seeking admission to the Master's degree programme must demonstrate professional aptitude.<sup>2</sup> Professional aptitude is present, if the person has completed at least a six semester technically relevant course of study with a Bachelor degree to the extent of at least 180 ECTS credits or with an equivalent degree in a course of study at a German college or a college, which is from one of the Bologna Signatory States, as per section 2 in the course of study Macroeconomics, Economic Sciences, Agricultural Economics or in a subject area which is technically related. <sup>3</sup>Final examinations which have been passed in a country outside the Bologna Signatory State, require assessment of equivalence for the degrees as per sentence 2 considering the recommendations by the Central Office for Foreign Education (ZAB) at the office of the permanent conference of the federal ministers of cultural affairs in Federal Republic of Germany (KMK) for the accreditation and assessment of foreign proof of academic qualification that are laid down at the URL [www.anabin.de](http://www.anabin.de).<sup>4</sup>The grades of the foreign proof of academic qualification should be converted to the German grading system.

(2) <sup>1</sup>Notwithstanding section 1, eligibility will be considered proven by applicants who have not yet completed a course of studies at the time of application, but have acquired at least 150 credits in a relevant Bachelor's degree programme as stated in section 3 or in an equivalent degree programme. <sup>2</sup>The average grade calculated from the previous examination components is also considered in the selection procedure instead of the bachelor grade or the grade of an equivalent proof of academic qualification, irrespective of whether the result of the Bachelor's examination deviates therefrom.

(3) <sup>1</sup>The decision whether an undergraduate programme is relevant in the meaning of sections 1 to 2 is made by the selection committee. <sup>2</sup>Requirement for subject relevance of the undergraduate degree is the proof of at least the following components:

ca) Components in Macroeconomics and/or Agricultural Economics and/or Econometrics with a rating of at least 60 credits, including components in Theory of Economics, Agricultural Economics and Development Economics with a total rating of at least 30 credits, again including at least 18 credits from modules with middle or high academic level, as well as in addition

b) components in Mathematics or Statistics or Econometrics with a total rating of at least 12 credits.

<sup>3</sup>Subject relevance is assessed on the basis of the documents to be submitted along with the application as well as suitable criteria, especially based on module descriptions, from which follow teaching and examination contents, and based on the used literature, the module prerequisites, the study and examination regulations and the sample curriculums of the degree programme, in which the component was accomplished. <sup>4</sup>Insofar as fewer persons apply who satisfy all qualifications for entry according to sentence 2 than there are university places to be awarded, the selection committee may require the completion of pending examination components under sentence 2 within two semesters for assessing the subject relevance; in this case, assessment of subject relevance and the entry is subject to termination until proof of the pending examination components, which should be submitted within two semesters from the time of enrolment at the university (closing date). <sup>5</sup>If the proof of the pending examination components is not submitted within the deadline, the assessment of the subject relevance and a related letter of admission will become ineffective. <sup>6</sup>The assessment of the subject relevance is omitted if the components under line 2 that have not been accomplished yet have a rating of more than 15 credits.

(4) <sup>1</sup>Applicants whose native language is not English must show very good English language skills. <sup>2</sup>Very good English language skills must be demonstrated with standardised or accredited certificates at minimum C1 level in accordance with the Common European Framework of Reference for Languages (CEFR) or comparable achievements; the following shall serve as proof:

- a) a proof of academic achievement for at least one Business English course at level C1 from an accredited university;
- b) Cambridge English Scale: min. 180 points;
- c) International English Language Testing System (IELTS Academic): min. band 7.0;
- d) Test of English as a Foreign Language, internet-based test (TOEFL iBT): min. 95 points;
- e) Global Scale of English (Pearson Academic): min. 76 points;
- f) UNICert®: min. certificate UNICert® III;
- g) NULTE certificate: min. level C1: Acert (Poland), CertACLES (Spain), CLES (France), UNICert®LUCE (Czech Republic and Slovakia), UNI-LANG (United Kingdom). \*Network of University Language Testers in Europe

<sup>3</sup>Other certificates according to the "Common European Framework of Reference for Languages" (CEFR) can be admitted by the selection committee after a professional statement by the Central Institution for Languages and Key Qualifications (ZESS) of the University of Göttingen.

<sup>4</sup>Successful completion of the tests may not be more than three years before submission of the application for admission to the Master's degree programme. <sup>5</sup>Exempt from the obligation to provide proof of a test are applicants who can provide evidence of

- a) two years spent studying at school / university or working abroad in an English-speaking country, not earlier than five years before submission of the application for admission,
- b) the successful completion of a degree programme taught entirely in English or
- c) education that was acquired at a school with English as the medium of instruction and is equivalent to the German university entrance qualification.

(5) <sup>1</sup>Moreover, the general provisions of the enrolment regulation of the University of Göttingen for enrolment remain unaffected. <sup>2</sup>The enrolment of the applicants, authorised in principle for admission according to section 2, is conditional upon submission of proof of successful completion of the Bachelor's degree programme or an equivalent programme. <sup>3</sup>Proof must be submitted by 15 November. <sup>4</sup>Provided the Dean of Studies determines, on the basis of the periods of studies so far, in particular the present examination components, that the applicant will attain the degree latest up to the end of the first semester of the Master's course of study, the deadline as per sentence 3 is extended up to the end of 31 March; the statement is admissible, provided

- a) as for examination results, only the thesis is missing or

#### **§ 4 Selection Committee for the Master's degree programme**
